

Street, who is at the present time investigating the Halls and Mills case for the Daily Mirror was an associate of Luisi and the chances are that they are very friendly to the present date. Further that Mrs. Florence Dalton Marsh was formerly employed by Farley as one of the investigators in a confidential capacity, also that she had been with him for over a period of seven years and she also worked for Luisi. She further informed me that she advanced Farley the sum of \$5000 so that he might open up a detective agency. She further states that in all Farley owes her over \$10,000., as he still owes her money for work done by her. She informed me that both she and Farley are very friendly with Phillip Payne, and that she did work for him when he was on the Daily News. As to Payne, she knows him much better than she does Mayer, that Payne originated from Toronto, Canada and was friendly with an actress by the name of Dorothy Hughes. As for Mrs. Marsh herself, her home is in three rivers near Montreal, Canada, where her father is living at the present time and running a paper mill (?) He is married to a second wife and Mrs. Marsh is not very friendly with her step mother. Also that Mrs. Marsh had been married once before and divorced from her husband. That her present husband Mr. Marsh is a nephew of Magistrate Marsh. Mrs. Marsh told me that both Payne and Mayer visited her home to secure information concerning Mr. DeM., and the question they were most interested in was whether Mr. DeM, while she was in his employ tried to bribe any witnesses to change their testimony. Also that on the evening of August 20th, 1926 as Mr. DeMartini was entering his home Mrs. Marsh was on the telephone and when DeM. took the receiver she advised DeM that a newspaper reporter of the New York Times had been to her house a few hours before, and showed her a picture of three men one was holding a revolver. She then described how the men were dressed and this reporter asked her which one of these men is Mr. DeM, to which she replied Mr. DeM. is not in this picture but the center picture resembles him, although it is not him, but the other man is John J.
